Ref. No. ENV-10-2006-100-P

February 26, 2007

Sub: CRZ clearance for proposed treated effluent pipeline of M/s Birla Cellulosic, at Kharach, Kosamba, District: Bharuch.

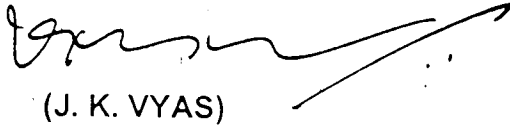

Reference is invited to the Ministry of Environment and Forests, Government of India's letter No. J-11-51/2006-IA-III, dated 17-01-2007 according to the Environmental Clearance (EC) for your proposed project of laying the treated effluent disposal pipeline (conveyance system) to dispose off their treated effluent to the tune of 14580 m³/day into the estuary of Kim River at a point suggested by the National Institute of Oceanography (NIO) at the co-ordinates, latitude 21° 27'35" N and longitude 72° 45'01" E., with strict compliance of the conditions stipulated therein.

In view of the Specific Condition No. A (i) stipulated by the MoEF, GOI, in their above mentioned EC letter, following conditions stipulated by this Department in the letter dated 3-11-06, shall have also to be strictly complied with by the Birla Cellulosic.

1. The provisions of the CRZ notification of 1991 and subsequent amendments issued from time to time shall be strictly adhered to by the Birla Cellulosic.
2. 14580 m³/day of the treated effluent meeting with the Gujarat Pollution Control Board (GPCB) norms at the point recommended by the National Institute of Oceanography shall only be discharged through the said pipeline.
3. All the recommendations and suggestions given by the NIO and NEERI in their effluent disposal point selection report / Environment Impact Assessment report shall be implemented strictly by the Birla Cellulosic.
4. The effluent not meeting with the GPCB norms shall not be discharged and shall be stored in the Guard Ponds and recycled back into the Effluent Treatment Plant for further treatment to achieve the GPCB norms. The Birla Cellulosic shall install necessary facilities for this purpose and shall strictly ensure the compliance with the GPCB norms, round the clock.

5. Comprehensive Environment Impact Assessment report shall be submitted to this department and the recommendations/suggestions given in it shall be implemented.
6. The construction debris and sewage generated during the construction phase shall not be discharged into the creek, sea, estuary or into the CRZ area. The debris shall be removed from the construction site immediately after the construction is over and shall be disposed off as per the guidance of the GPCB.
7. The construction camps shall be located outside the CRZ area and the construction labours shall be provided with the necessary amenities, including sanitation, water supply and fuel and it shall be ensured that the environmental conditions are not deteriorated by the construction labours.
8. The groundwater shall not be tapped to meet with the water requirements during construction or operation phase in any case.
9. A Disaster Management Plan to meet with any eventualities that may arise during construction and/or operation phase shall be prepared and implemented.
10. The pipeline shall be monitored regularly by the company and it shall be ensured that there is no leak from the pipeline. In case of any such eventualities, the company shall immediately stop disposal through the said pipeline and take the corrective measures in consultation with the GPCB and the District Collector.
11. Necessary permissions from different departments/ agencies under different laws/ acts shall be obtained before commencing the construction / pipeline laying activities.
12. A separate Environmental Cell with qualified personnel shall be created to implement the Environmental Management Plan and a separate budget shall be provided for this purpose.
13. The cost of the external agency that may be appointed by this Department for supervision / monitoring of the project activities during construction/ operational phases shall be borne by the Birla Cellulosic.
14. Massive greenbelt development program including the mangrove plantation shall be carried out in consultation with the Forest Department by the Birla Cellulosic.
15. A large scale socio-economic upliftment program in consultation with the District Collector/ DDO shall be carried out. A separate budget shall be provided for this purpose and details be furnished to this Department from time to time.

16. Environmental Audit report shall be submitted every year. The report shall also cover the change in the coastal and marine environment enroute the proposed pipeline and around the disposal point due to commissioning of the proposed pipeline.
 17. M/s Birla Cellulosic shall provide financial and technical support to the Green Corps Scheme being implemented in Gujarat by the GEER Foundation in consultation with this Department.
 18. A six monthly progress report regarding the compliance of the conditions shall be submitted to this department.
 19. Any additional condition that may be imposed by this Department from time to time shall have to be complied with by the Birla Cellulosic.
- You are further directed to furnish us the six monthly compliance reports with respect to the conditions stipulated by the MoEF, GOI, as well as the above mentioned conditions stipulated by this Department in the months of January and July, each year, without fail.

(J. K. VYAS)
